Dear Atty Gen. Ashcroft:

My wife and I are extremely pleased that the settlement agreement which has been reached between Microsoft and the US Justice Department. It is my understanding that the agreement is currently undergoing a sixty day period in which the public is encouraged to provide input on the matter.

Let me say that we fully support this settlement because it is good for the country, the economy and technological innovation.

Microsoft has accomplished so much and has contributed greatly to the success of this great country of ours.

Please STOP the litigation, enough is enough. Our legal system is running rampant and is destroying our Free Enterprise System which has made our country great.

My wife and I plead with you to stop the litigation and settle the matter.

Thank you for your consideration,

Frank & Francesca Nuovo
